

## PRESS RELEASE - GIBSON ENERGY ULC

November 19, 2009

*Mr. A. S. (Stew) Hanlon, President and C.E.O. of Gibson Energy ULC* is pleased to announce that effective November 18, 2009 Gibson Energy (U.S.) Inc. completed the acquisition of three propane terminal facilities and associated business from *Superior Propane LLC*.

The purchased business consists of marketing propane with terminal operations located in Montana and South Dakota. The assets purchased include operations in Helena, MT consisting of 360,000 US gallons of storage capacity with rail loading access. Shelby, MT operations consist of 156,000 US gallons of storage capacity with rail loading access. A facility in Rapid City, SD consists of 600,000 US gallons of storage capacity, serviced by truck only. Gibson is also pleased to welcome five employees from Superior who will be integrated in to Gibson's Propane Marketing & Distribution division.

The acquisition of these assets enhances Gibson's wholesale infrastructure for marketing propane into the Northern US. As well, with the increase in wholesale volumes and facilities in Montana and South Dakota, it further expands Gibson's presences in the wholesale propane market.

---

*Gibson Energy is a progressive Alberta-based company providing integrated oil and gas transportation, terminal and marketing services*
